Integrated Pest Management

to application of a pesticide on school property. Meriden's Integrated Pest Management program entails some of the program. The law requires that the school system develop a registry of parents and staff that would like notification prior compliance with State law, the Meriden Public School system actively practices an Integrated Pest Management The Meriden Public School system places your child's safety above all else in operating its school facilities. In following procedures:

- 1. Buildings are visually inspected on a regular basis to determine if any infestation exists and to eliminate any condition that might be conducive to breeding or attracting of pests
- 2. Corrective actions are taken immediately when there is a potential concern
- 3. Non-toxic solutions are utilized as a first course of action to abate any pest problem
- 4. When toxic measures (pesticides) must be used, the least toxic available product is utilized.
- Chemical treatment is only performed by State licensed applicators
- Treatments, when necessary, are done during non-school hours

Parents wishing to be placed on the school notification registry should indicate so by registering in their child's school
